

Got the Covid vaccine in Plattsburgh

By Mark Frost
Chronicle Editor

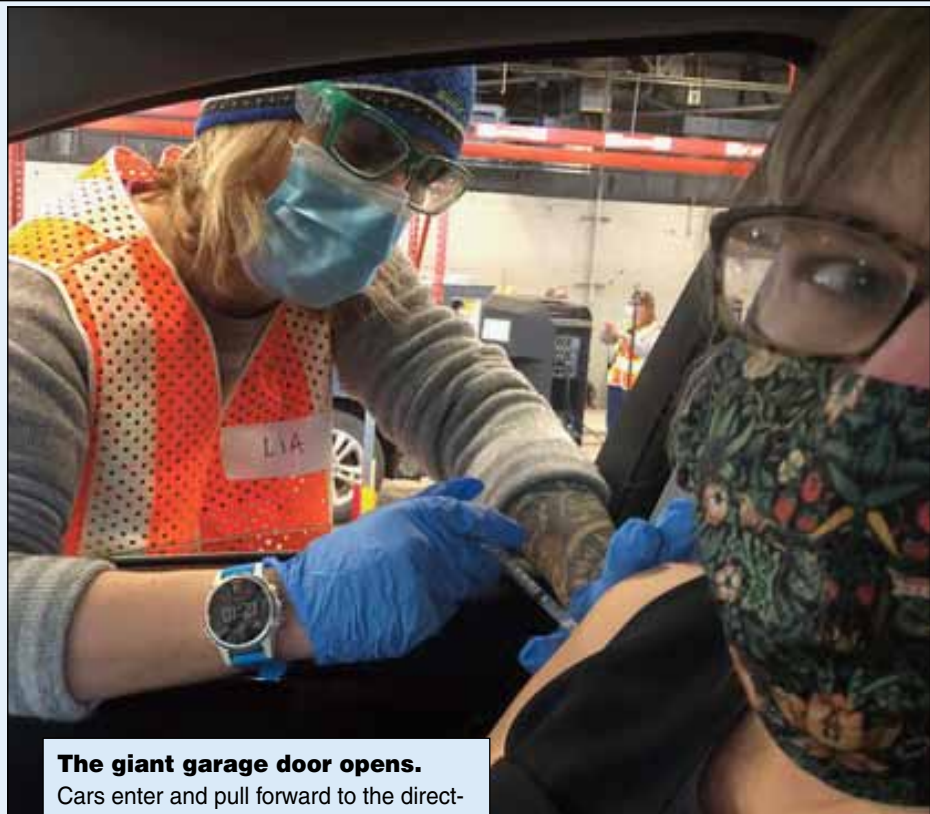

I anticipate that any day now, the Covid vaccine will become more available in Glens Falls, but we drove the 110 miles to the state site at the airport in Plattsburgh last Wednesday, because after weeks of trying, an opportunity opened for us there.

I had no idea what to expect.

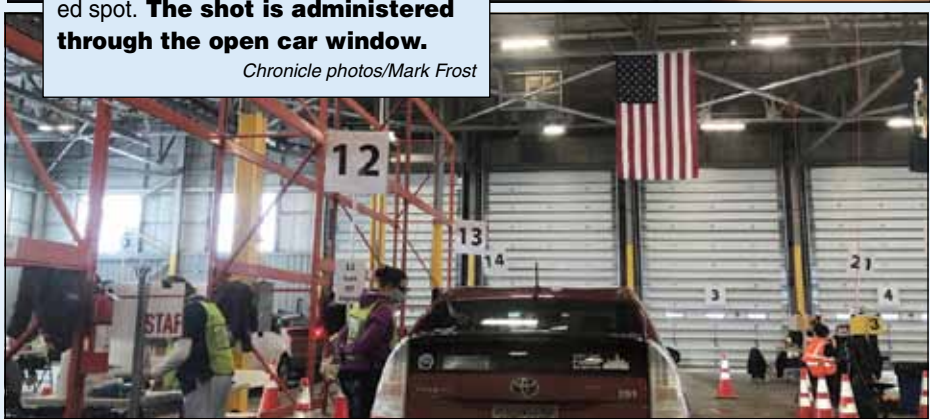

It turned out **we never left our car.** We drove right inside the building. Lia, the nurse, **gave the shot through the rolled down window.**

The process was efficient and quick. It was **the Pfizer vaccine.** The next day came an email scheduling our second shot exactly three weeks later, after which it's supposed to take

Fury at Cuomo by local officials

Area state and federal elected officials — Democrat and Republican alike — expressed anger at the Cuomo administration after the **New York Post** revealed that **Melissa DeRosa**, secretary to Governor Andrew Cuomo, **admitted during a video conference call** with state Democratic leaders **they hid the state's COVID-19 nursing home death toll** for fear it would be "used against us."

Top aide told fellow Democrats: We withheld the nursing home Covid death toll

State Senator Dan Stec, a Republican, wrote in response: "The governor's top aide has finally admitted that the Cuomo administration **deliberately deceived us...** That the **disclosure happened in a closed-door, damage control meeting** with key Democratic...lawmakers is a real disgrace.

"For months, the governor's office has stonewalled the media, the public and the families of those who lost loved ones in nursing homes. Now, backed into a corner due to an Attorney Gen-

Faults 'convoluted' vaccine scheduling

To the Editor:

What a shame that getting a vaccine appointment is so convoluted. Who thought up the current system where more folks are added to a list that is woefully under stocked for the first group of eligibles?

Who also thinks it's great to ask people to go online at 4:00 in the morning to eke out an appointment and then spend their day trying, only to be told repeatedly that no appointments are available? It's past time to put a smooth system in place!
